NEXTREME and ACTE

NEXTREME develop and produce a new way of **Energy Harvesting**, the Thermo Electric generation of power. With a difference of only 10 C, we start to generate power from the element.

ACTE has signed up with Nextreme, for our aim to be able to offer several solutions within energy harvesting.

RC232 Cable Replacement!

Compact RF modules with embedded protocol

- Smallest in the world (12.7 x 25.4 x 3.5 mm)
- Low current consumption
- High performance narrow band or low cost wideband
- Compact shielded module for SMD mounting
- No external components
- Wide supply voltage range
- Conforms with EU R&TTE directive (EN 300 220, EN 301 489, EN 60950)
- Operation under FCC CFR 47 part 15, ARIB STD – T66/T67; G.S.R 564(E)/168(E)
- All modules tested before shipment

12 Position

16 Position

Alps Highly waterproof encoder with heavy torque

- Waterproof capability compliant with the IPX7 standard
- Heavy torque operation
- 12 , 16 positions
