TDK-Lambda Medical PSU

Leading power supply manufacturer TDK-Lambda extends its successful range of EFE digitally controlled medical power supplies with the introduction of the 400W, EFE400M Medical range.

Combining a 4kVac reinforced input-to-output isolation with dual fusing and an output-to-ground isolation of 1500Vac, the EFE400M meets EN/IEC/UL/CSA 60601-1 safety approvals for medical equipment, making it suitable for use in B (body) and BF (body floating) type medical applications.
