iSMART TFT Demonstration Videos

Here is a selection of videos demonstrating the capabilities of the iSMART TFT programming language.

All the videos are based on the 4,3" TFT, but the range of the iSmart is from 3,5" to 7"

Powerful but Easy to Use Graphic User Interface

Create and link buttons, text, shapes, images and photos via your host interface or use a text editor to create and pre-store them on an SDHC card for transfer to on board flash memory or RAM. Build in functionality behind the page and let the module take care of the navigation and process actions
